

2015-2016

# *Brenau University Advising Handbook*

Brenau University  
500 Washington Street SE  
Gainesville, GA 30501

Available online in the  
Faculty Commons Canvas site

**Editor's notes:**

Brenau has adopted the NACADA spelling of *advisor*. In this handbook, that spelling has been silently inserted into older Brenau documents that contain the alternate spelling *adviser*.

Regarding personal pronouns that refer to students: for the sake of inclusivity, plurals have been used when they do not impede clarity. When the singular makes more sense, feminine pronouns have been chosen in recognition of Brenau's tradition as a Women's College and its current enrollment of approximately 85% women

# Brenau University Advising Handbook

**2015 - 2016**

## **About This Handbook**

It is intended to assist both faculty and staff in our efforts to advise students on their varied paths through Brenau and beyond. It includes both general advising principles and Brenau-specific policies; we have tried to gather pertinent resources into one user-friendly place. Please note that this document is available both in hard copy and as a pdf file on Brenau's intranet (under Popular Places) and on the Faculty Commons (in Canvas).

As policies and procedures evolve, this handbook will continue to be updated: it is not all-encompassing now. Everyone involved in its creation acknowledges that accurate, comprehensive advising is a complex undertaking—especially at Brenau, with our diverse student populations, program delivery modes, advising roles, and more. Nevertheless, effective advising is crucial to Brenau's mission.

*Brenau University challenges students to live extraordinary lives of personal and professional fulfillment. As students pursue undergraduate and graduate degrees or non-degree programs at Brenau campuses and online, each prepares for a lifetime of intellectual accomplishment and appreciation of artistic expression through a curriculum enriched by the liberal arts, scientific inquiry and global awareness.*

Thanks to all who submitted corrections and additions for this version of the Handbook. Please send correction notes or suggested additions for next year's Advising Handbook to Nichole Budd: [nbudd@brenau.edu](mailto:nbudd@brenau.edu).

# ACADEMIC ADVISING OVERVIEW

## **Definition(s) of Academic Advising**

In Brenau's Faculty and Staff Guideline on Academic Advisement, advising is defined as "an inclusive and intrusive interest in the students, their life, their careers, their course of study and scheduling."

The National Academic Advising Association (NACADA) has culled definitions from various sources. Most reinforce the expansive and collaborative nature of advising:

"a process of information exchange that empowers students to realize their maximum educational potential. The advising process is student-centered and will result in the student gaining a clearer understanding of himself/herself, and the experience of higher education" (University of Michigan);

"a systematic process based on a close student-advisor relationship intended to aid students in achieving educational, career, and personal goals through the use of the full range of institutional and community resources" (Winston, Enders, and Miller).

See these and more at <http://www.nacada.ksu.edu/Resources/Clearinghouse/View-Articles/The-definition-of-academic-advising.aspx>

An advisor builds relationships with students. From a foundation of trust, the advisor can help students recognize their personal strengths and academic aptitudes and gauge how well these fit their chosen field of study or career plan. Sometimes an honest assessment may mean inviting students to consider other options. When emotional or mental health problems interfere with a student's academic performance, the advisor may need to initiate referrals for professional help. Yet an advisor may also experience the satisfaction of introducing students to the dispositions and practices of a shared profession and serve as their mentor for years beyond the classroom. In all cases, sound advising from initial inquiry to diploma will mean focusing on the significant details of program plans and graduation requirements and facilitating students' understanding- and completion-of these. One objective that unites our diverse student populations is earning their degree: advisors should empower students to progress toward that goal.

Note well: Effective, holistic advisement can enhance students' personal, academic, and professional development; it can foster students' connections to and satisfaction with the university. On the other hand, inadequate advising can interfere with students' progress and trigger their disaffection from the entire institution. Faculty and Staff Guideline on Academic Advisement cautions that

faculty members should consider the legal ramifications associated with the advisement role and be aware of the liability that may be incurred for improper or inaccurate advising. It should also be noted that the number one problem identified by students in evaluating their college careers is poor academic advisement. All faculty should therefore take their advisement responsibilities seriously and be thoroughly familiar with all academic requirements.

## **National Academic Advising Association (NACADA) Core Values**

To guide individuals and institutions in carrying out the wide range of activities that advising can entail—from a student's first inquiry about a degree program to his or her entry into career or professional life—NACADA offers the following list of values:

1. Advisors are responsible to the individuals they advise.
2. Advisors are responsible for involving others, when appropriate, in the advising process.
3. Advisors are responsible to their institutions.
4. Advisors are responsible to higher education.
5. Advisors are responsible to their educational community.
6. Advisors are responsible for their professional practices and for themselves personally.

<http://www.nacada.ksu.edu/Resources/Clearinghouse/View-Articles/Core-values-declaration.aspx>

The NACADA website expands on the practical and philosophical implications of these values—and much more. It is a resource worth exploring.

Broadly, the values emphasize that advisors have a serious commitment to those they advise. They should be sufficiently attentive to recognize when students need academic advice or support and sufficiently knowledgeable about institutional resources to facilitate access to those resources. Effective advisors understand that their interactions with students happen in a larger context: each positive exchange promotes not only the well-being of the individuals involved but also the strength of the academic institution and educational community.

## **Responsibilities: Advisor and Student**

Advising should be a partnership between advisor and student. Advisors should

- be familiar with all academic requirements and communicate these clearly;
- discuss specific expectations for the advisor and advisee roles;
- be aware of institutional resources and encourage students to use these;
- respond promptly to advisees' questions and requests for appointments;
- monitor advisees' progress and intervene when necessary;
- keep careful records of all transactions;
- encourage students to accept responsibility for their own academic success;
- maintain regular contact with advisees, at least once a semester. Those with large numbers of advisees may want to consider electronic newsletters or group meetings to accomplish this.

Confirm that students understand the "Student Responsibility" statement in the Brenau University Catalog: "Advisors, faculty and deans assist students in meeting [degree] requirements; however, students are responsible for fulfilling them. . . . It is the student's responsibility to be familiar with and to complete the chosen course of study."

To hold up their side of the advising partnership, students should

- maintain an updated program plan with a record of all courses taken;
- read and respond to all pertinent communications from their advisor, department, Registrar, etc.;
- schedule conferences with their advisor, especially prior to registration;

- come to these conferences prepared (whether in person, on the phone, or online);
- inform their advisor when they add, drop, or withdraw from classes;
- alert their advisor to academic or personal problems that are interfering with their academic performance;
- follow through with any referrals from their advisor.

### **Stages of Advising at Brenau**

The Ad Hoc Advising Task Force, charged by the VPAA in August 2012 with studying the state of advising at Brenau, identified four "Stages of Advising" in their 2013 report. These stages describe a student's Brenau journey from first inquiry to post-graduation: "Pre-Admission, Matriculation, Retention, Lifelong Relationship." At each stage, students require distinct types of information and varying levels of involvement from advisors—and other Brenau personnel. This handbook addresses what advisors may need to know and do during each of these four stages.

## **BRENAU'S STRUCTURE: APPLICATION CATEGORIES**

### **Undergraduate—Women's College and Coeducational**

Women's College students typically take a full course-load and immerse themselves in their college experience. Students in coeducational programs are more likely to pursue their degrees part-time, either online or at the Gainesville, North Atlanta/Norcross, South Atlanta/Fairburn, Augusta, King's Bay, or Jacksonville, Florida campuses. The availability of degree *programs* varies by location and platform, and students need to understand this as they plan their academic paths. For lists of the undergraduate majors offered online, at each campus, and in Day or Evening/Weekend formats in Gainesville, visit [www.brenau.edu/admissions/coedundergrad/](http://www.brenau.edu/admissions/coedundergrad/).

### **Sidney O. Smith Graduate School**

Brenau offers master's-level programs at most campuses and online, and has recently introduced doctoral programs in Nursing Practice, Occupational Therapy, and Physical Therapy. More details about graduate programs and their specific admissions requirements are available on the web pages of each College and at <http://www.brenau.edu/admissions/>.

### **Adult & Graduate Studies (AGS)**

Select undergraduate and graduate programs that had been offered online and/or in Evening/Weekend formats at the various campuses have moved to the accelerated cohort model. The entire list of programs, along with basic information about the AGS format, is available in the Appendix.

## PRE-ADMISSION

### **Step 1. Inquiry**

Before students are admitted to Brenau, they must imagine themselves here. While the Admissions Office takes primary responsibility for contacting prospective students and making them aware of program offerings, faculty members often become involved in this process by participating in recruitment events, information sessions, and one-on-one discussions regarding specific program requirements. For those departments with additional admissions processes such as interviews, auditions, or writing sample and portfolio reviews, faculty members administer and evaluate these. Faculty may also consult with transfer students about potential course substitutions or transfer credits.

During the pre-admission stage, faculty often function as "at-large" advisors (for instance, at Winter Weekend or Senior Saturday) and may be asked about anything related to Brenau, from admissions requirements to placement policies, scholarship opportunities, study abroad programs, and more. Familiarity with the application process and some awareness of Brenau's academic programs will help pre-advisors respond. When in doubt, though, be sure to ask. Consult the Faculty and Staff Directory (on CampusWEB and in print) to locate the person with the correct information. Unless the question is truly a simple one, encourage students to contact directly the sources you help them find. Empower prospective students to seek out the answers they need, and allow the designated experts to perform their roles. Keep in mind, too, that programs and policies and even office locations change. Stay alert to announcements about these changes, and make note of them. Remember that misinformation hinders students at every stage of their Brenau journey.

### **Step 2. Application**

Undergraduate and graduate applications can be found at [www.brenau.edu/apply](http://www.brenau.edu/apply).

A student may apply online or download the form and mail it in. Undergraduate applications are accepted on a rolling basis, and new students are accepted throughout the year. Graduate programs vary; many require supplemental applications, and some stipulate annual deadlines: applicants should attend to all guidelines posted.

### **Step 3. Documentation**

Application files are not complete until students have submitted all required supporting documents. These always include official transcripts of any college work attempted. First-year students *or those with fewer than 30 hours of earned college credit* must submit official high school transcripts or GED certificates, plus SAT or ACT scores. (For students who have been out of school more than 7 years, the SAT/ACT requirement is generally waived.) Other required documents vary according to program and students' situations and are identified in checklists on the Admissions web pages.

#### **Step 4. Evaluation**

As documents are received, Admissions Operations reviews them, especially for GPA and standardized test scores. Transfer applications require further review.

#### Transfer Credit Evaluation

Courses taken at regionally accredited institutions *may* fulfill Brenau requirements *if* Brenau has equivalent courses. The Admissions website maintains a running list of approved transfer credits. The Brenau Transfer Equivalency System is accessible to all and can be found at [www.brenau.edu/admissions/tes/](http://www.brenau.edu/admissions/tes/).

A few reminders about transfer credit:

- no D's, ESL or developmental courses transfer;
- major coursework older than 15 years will not be accepted unless the appropriate College Dean approves an exception;
- courses with technical content (e.g., computer programming) may not be accepted after 5 years;
- for the baccalaureate degree, students may not transfer *more than* 65 credit-hours from two-year institutions;
- there is no expiration date on Liberal Education coursework.

See [www.brenau.edu/admissions/transfer-equivalency-info/](http://www.brenau.edu/admissions/transfer-equivalency-info/).

Policies indirectly affecting transfer credit:

- baccalaureate students must complete a residency requirement of *at least* 30 credit hours at Brenau, with 21 hours in the major;
- students with an Associate of Arts or Science degree from a regionally accredited institution are deemed as having fulfilled Brenau's Liberal Education requirements; all coursework does not need to match.

*Graduate Programs:* Application/documentation requirements vary. Departments share responsibility with Admissions for evaluating candidates and making acceptance decisions. When an applicant's file is complete, Admissions notifies the department and forwards them the Graduate Admissions Cover Sheet. The department then reviews the file, completes the Graduate Admissions Cover Sheet and program plan, and returns these to Admissions.

#### Program Plans

Each major program has a document that lists all courses required for the degree: this planning tool is the program plan. After the transfer credit evaluation, Admissions begins filling out a program plan for each student by inserting applicable (equivalent) courses into the plan for the applicant's intended major. Program plans for all majors and degrees are posted on the Registrar's page at [www.brenau.edu/academics/registrar/currgmplans/](http://www.brenau.edu/academics/registrar/currgmplans/).

As curriculum changes occur, the Registrar updates these plans, which are year-specific. Students abide by the program plan of their first matriculation unless a new version is

introduced before they graduate and they choose to *switch*. (They may not follow some parts of one plan and some parts of another.)

Undergraduate baccalaureate program plans have a front and back.

- The front contains the Liberal Education (LE) requirements for the degree.
- The back lists the course requirements for the major.

Any major course designated as "LE" may also be used to fulfill a Liberal Education requirement in the designated Portal. Useful to know: archived versions of LE course listings are included on the Registrar's program plans page. A current LE course matrix—by portal—can be found in this Handbook's Appendix.

#### Course Equivalency vs. Course Substitution

An *equivalent* course from another institution probably has a different number and title than its Brenau counterpart, but the course descriptions closely resemble one another. Admissions and the Registrar typically determine equivalents. Sometimes they consult faculty. The Brenau course number and name will be used on the Brenau transcript, with a "TR" designation. An equivalent course meets future prerequisite requirements.

A course *substitution* is initiated by an advisor to facilitate a student's timely progress toward her degree. It involves replacing a required Brenau course with a course (from another institution or from Brenau) that meets the same general objectives. No claim is made that the substitute course mirrors what it's replacing, which may be a major elective, a Liberal Education requirement, or other. Substitutions can be called for when a transfer student first arrives, perhaps with substantial coursework that does not quite match Brenau's, or later in her career (for example, when a Senior is in danger of not graduating because a required course was cancelled.) Proposing a course substitution often means thinking broadly and creatively about educational goals; the advisor's request must include a rationale. Substitution forms, paper (PDF) and electronic, are linked on the Registrar's handy Forms page: [www.brenau.edu/registrar/regforms/](http://www.brenau.edu/registrar/regforms/).

The advisor, the department chair or dean who "owns" the course being replaced, and the Registrar must all approve a substitution. Notice of approval or denial is posted in the advisee's file on CampusWEB under "Substitute/Waiver Inquiry." Note: students will need to complete a paper registration whenever a course prerequisite has been fulfilled through course substitution.

### SentryFile Document Storage

After indicating equivalent courses on an applicant's program plan, Admissions posts it to SentryFile, Brenau's electronic document storage system. PDF copies of students' applications, transcripts, standardized test results and more are kept at <https://documents.brenau.edu/sentryfile/>.

To access SentryFile after navigating to the web address,

- click "I agree" on the license button;
- enter network username (your email without the "brenau.edu");
- enter network password.

Usage tips: Agree → Username → Password → Quick Search →  
Select All → Keywords → Student ID# → Search  
(if student ID# is not available, use student name)

### **Step 5. Acceptance & Advisor Assignment**

Admissions sends letters to those accepted and copies the appropriate advisor or advisor designee. Departments determine who the advisors for their programs will be, and the Chairs keep this information updated with Admissions.

# MATRICULATION

## **Steps 6 & 7. Access and Enrollment Intention**

Crucial information about the procedures students need to follow immediately after acceptance can be found at [www.brenau.edu/admissions/nextsteps/](http://www.brenau.edu/admissions/nextsteps/). Included are IT instructions about how to log on to CampusWEB, Lab Computers, Tiger Mail, and Canvas. The IT department also sends this access information directly to students once they've been admitted.

After students have been accepted, they *must* return their Enrollment Intention Form to Admissions. Students will not be able to register until they have *signed* and returned this form. At this point, students' files are electronically moved to the Registrar's ownership.

After Admissions receives the Enrollment Intention Form, they create a "Generate PIN" (Personal Identification Number) button in the student's "Biographic Inquiry" area on CampusWEB. After the advisor completes the initial advising session with the student, the advisor clicks on this button, which releases the student to register. Note: PINs are automatically generated for AGS students.

## **Step 8. First Advisement**

Tips for the first advising session cannot be one-size-fits-all. But whether first advisement happens in group or individual sessions, in person or online, for Women's College or Graduate students, keep in mind that you are:

- introducing students to the academic culture of Brenau;
- establishing your role as a concerned, knowledgeable, and helpful advocate;
- clarifying expectations about the advisor-advisee partnership;
- helping students gain a clear view of program expectations.

## CampusWEB

CampusWEB files can be accessed by the student, the student's advisor, and all faculty in the student's major program. Advisors locate their advisees' files by entering CampusWEB and clicking on the My Advisees link in the menu on the left. Each file contains the following:

- Biographic Inquiry
- Schedule Inquiry
- Grade Inquiry
- Billing Inquiry
- Financial Aid Inquiry
- Transcript Inquiry
- Substitute/Waiver Inquiry
- Graduation Checklist

To see the CampusWEB file of a student in your major program who is not your advisee, find the student's name in the CampusWEB Student Directory. If you have access permission, the name should appear in red font. When you place your cursor over the name, it should be hyper-linked; one left click will send you to the student's complete file.

*Tip:* This ability to access files for all students in your major facilitates shared advising responsibilities. It also allows access to the unofficial "second" advisor of a student who is double majoring.

### Preparing for First Advisement

Brenau policy requires that students be advised before they register for the first time. Knowing as much as possible about the student's credentials will help that first session run smoothly.

Check SentryFile to see students' records, which may include:

- Application to Brenau
- Academic Transcript(s)
- Transfer Credit Evaluation
- Program Plan
- Standardized test scores (SAT or ACT)
- Math placement results
- English placement results
- Modern Language test results (CLEP, BYU FLAT, WebCAPE, TOEFL)
- AP, CLEP, DSST results

Prepare for the advising session by assembling or consulting these tools, if applicable [documents with an asterisk are included in this handbook's Appendix]:

- Current Liberal Education Matrix\*
- Placement guidelines for Math\* and English\* and Modern Language\*
- Alternative credit policies\*
- Alternative credit guides (AP, CLEP, DSST)\*
- Class rotation lists
- Course schedule
- Program plan [a blank one for true first-year students; a copy that indicates previously completed courses for transfers]

Determine what Math, English, and/or Modern Language courses the student is eligible for or still needs to take. Having this information prior to your session with the student will promote advising efficiency, and your knowledgeability will promote the student's confidence in your Advisor-Advisee partnership.

Review transcripts, especially of any college work, ahead of time to form an initial idea of the student's aptitudes and work ethic. For instance, a student who has performed at a high level while carrying heavy course loads in the past may well continue that pattern. On the other hand, if a student's record shows frequent course withdrawals and barely passing grades, the advisor might encourage the student to reflect on the reasons why—with an eye to addressing them. At the least, a light course load might be in order for the first term.

Examine the transcript and program plan for potential course substitutions if they are needed. Plan to discuss these with your advisee.

### Course Load Considerations

- 12 credit hours is the minimum full course load for financial aid purposes for undergraduates; 6 credit hours the minimum full load for graduate students;
- 15 hours is the average load necessary for undergraduates to complete their degree in four years;
- 18 hours is the maximum allowed without needing overload permission (via paper registration) and paying additional tuition (for full-time Day students).
- EH 99, MS 98, and MS 99 carry 0 hours credit, but they will require the same amount of work as any other course. (A student taking 12 credit hours of college-level work and one developmental course is effectively taking 15 hours.)
- Students who have substantial extra-curricular time commitments (Brenau athletes and theatre majors; those with family responsibilities, long commutes, etc.) should avoid heavy loads, especially their first semester.

### Women's College First-Year Students: Course Selection Strategies

- Students with 24 credit hours or fewer must register for AS 100 First Year Seminar. (Typically, Admissions will have already given the student information about which section of AS 100 to register for.)
- Schedule any required major courses next.
- Encourage students in the Honors Program to register for an Honors Seminar.
- Students who have placed into English 99 should take it: this course is usually offered on ground only in the Fall. (After EH 99, students are required to take both EH 101 and EH 102, so they should begin this writing sequence as soon as possible.) *Important:* CampusWEB lists a \$375 fee for developmental English and math courses. This fee does *not* apply to full-time Women's College students.
- If students place into Mathematics 98 or 99, they should take these as soon as possible as well. (Be mindful not to overwhelm students who need both developmental math and English. Consider waiting until Spring Semester for the math developmental course.)
- If the student is *continuing* a modern language from high school, try to fit a modern language course into her schedule.
- Fill in the schedule with other required Liberal Education Courses, especially those that serve as prerequisites for required major courses.
- Consider a 1-hour Lifetime Fitness or Lifetime Sports course to round out the schedule. Note: students playing varsity sports at Brenau can register for LF 199 Varsity Sports with permission of their coaches. LF 199 is worth 1-credit hour. It can be repeated and used to fulfill WH and/or LF/LS requirements.
- Ask if the student took any AP tests her senior year; results are not available until July. If results are not yet in, consider waiting to schedule applicable courses. And check that any AP results from the previous year are on file.

### Additional Advice

- If a student identifies as having a disability, she needs to send documentation of the disability to the Learning Center. The Director of the Learning Center, Dr. Vince Yamilkoski, must be officially notified before he can determine appropriate

accommodations. A lighter course load (12 hours) will often help students with disabilities succeed.

- If an international student is a degree-seeking student, her advisement will be similar to other students with the likely exception of the modern language requirement. See the Placement Guidelines for Modern Language in the Appendix.
- Make sure students understand that they can withdraw from a course before the midpoint of the semester if they find themselves overwhelmed; however, they need to keep 12 credit hours to maintain full-time status.
- Remind students that they will have many opportunities to become involved in campus organizations but that they should avoid over committing themselves, especially during the first semester.

### Coeducational Undergraduates

These students are generally older and more mature, with significant work and life experience; however, they may not know more than first-year Women's College students about the academic demands of college. (If students are true first-years, much of the above Women's College registration advice will apply to them; however, most beginning undergraduates who are not part of the Women's College will be enrolled in Adult and Graduate Studies—AGS—programs.)

- If they do not already have credit for EH 101, MS 101, and a modern language at the 102-level, and their placements test results are not on SentryFile, explain the various placement policies and tests.
- If students have been out of school for a few years, encourage them to begin with fewer courses until they have a sense of the time commitment. Students should plan on spending at least 12 hours per week per course. (This includes time in the classroom if the course is not online.) If they are working full-time and have families, they may jeopardize their chance to succeed by overloading.
- Explain how classes are scheduled (e.g. D1/D2/DE/Cohort). Balancing a student's load is important. Many can comfortably enroll in two courses in each seven-week session. Avoid scheduling three or four courses during the same seven weeks.
- Make sure that online students understand the resources available to them. A useful webpage is the Online Student Center at <http://www.brenau.edu/brenau-online/online-student-center/>.

### **Step 9. First Registration: Generate PIN**

For non-AGS students, after the first advising session, the advisor clicks on the "Generate PIN" phrase in CampusWEB in the student's Biographic Inquiry to permit the student to register via CampusWEB. Pins can also be generated by having the student submit a paper registration. (If a Generate PIN button does not appear, the pin may have already been generated. Or the student may have failed to complete and submit an Enrollment Intention Form. A call to the Admissions Office may be necessary.) PINs are automatically generated for AGS students.

## RETENTION

After their first registration, students do not need advisor approval, but they should stay in regular contact with advisors about their course selections and progress. Brenau offers a range of services and programs to enhance overall student success and satisfaction. As an advisor, you will contribute to greater student retention when you offer registration assistance each semester and effectively direct students to appropriate resources according to their individual needs.

### Registration Assistance

#### Paper Registration

Non-AGS students usually register online through CampusWEB, but paper registration is an option for non-AGS students. AGS students cannot register online, and, instead, must complete paper registration. Forms can be picked up from departmental offices, site coordinators, or the Registrar's Office. Registration forms must be signed by the student and submitted directly to the Registrar's Office. Do *not* mail or fax these. An advisor signature is only required the 1st semester of enrollment and in later semesters if there is an exception made (such as a schedule overload). Paper registration and appropriate signatures—designated on the form—are required for overloading a student's schedule [more than 18 credit hours for undergraduates], overloading a class section, or departmental over-ride of prerequisites.

#### Dropping and Adding Classes

Non-AGS students may drop and add classes via CampusWEB (or paper form) during the first week of class. (See the academic calendar on the Registrar's site for precise dates.) After that, classes may not be added. A Drop Form is used for dropping classes only. This Drop Form is available on the Registrar's forms page and will be accepted in person, by mail, by fax (770) 538-4790, or if scanned and sent by Brenau email. Note: students cannot drop all courses through CampusWEB: they must submit a Drop Form to cancel registration.

Students may use a Drop Form to withdraw from classes up until the midpoint of the semester or session and receive a W grade. (See the Academic Calendar for specific dates.) After midpoint, a drop will result in an automatic grade of WF.

#### Full Sections

If a course that a student needs is already full, she may ask permission of the course instructor to overload it. (Avoid overusing this tactic.) If the instructor agrees, a paper registration form will need to be filled out.

#### Course Substitutions

Once matriculated, students should work to complete their program plan "as is." When course cancellations or other unforeseen obstacles arise, course substitutions can keep the student on track to graduate. Refer back to page 7 for more on course substitutions.

#### Transient Credits

To request transient status at another institution, a student should fill out a Transient Request Form (available on the Forms page) and submit it to her advisor for approval. The advisor then

submits it to the Registrar's Office for final review and processing. A student should plan ahead to take transient courses: the institution she wishes to attend may require an application for admission.

### General Studies Major

When an undergraduate student either cannot complete the requirements for her declared major or chooses not to, but has taken too many credit hours to change her major and graduate in a timely fashion, she may change her major to General Studies. This is only available to Women's College students. The following criteria must be met:

- complete all Liberal Education requirements;
- complete an area of concentration of at least 24 hours, with a minimum of 12 hours in 300 to 400 level courses;
- complete a total of at least 36 credit hours at the 300-400 level;
- maintain an overall GPA of at least 2.0;
- complete 120 hours of course work.

(For additional information and guidelines, see the General Studies Program Plan on the Registrar's site.)

### **Alternative Credit Options**

Up to a maximum of 27 hours of credit may be obtained via alternative methods.

Note: only the Independent Study options below fulfill residency requirements.

### Tests

1. Advanced Placement (AP) courses are high school courses with college-level educational objectives. Students should have their official test scores sent to Brenau. The Brenau faculty responsible for the AP subject courses have determined what test scores will represent college-level mastery and earn course credit. See the Advanced Placement Credit Guide in the appendix for the list of qualifying scores.
2. College Level Examination Program (CLEP) and DANTES (DSST) examinations allow self-directed students to show college-level mastery. Students should contact the Learning Center (770-534-6133) for information and/or to schedule a test. See the CLEP/DSST Test Guide in the appendix for a list of tests and their qualifying scores.
3. International Baccalaureate (IB): Brenau recognizes the quality of the International Baccalaureate Program, and credit towards the undergraduate degree will be awarded on a course-by-course basis. Course credit will be given for scores of 5, 6, or 7 on the higher level examinations. Although no credit will be awarded for examinations taken at the Subsidiary level, additional credit may be awarded after departmental review and with approval by the Provost and Vice President for Academic Affairs.

### Experiential Credit

4. If a student believes that her work experience has provided the educational equivalent of a college course, Brenau offers a way to document that learning and earn the credit. Refer to the *Experiential Credit Application* listed among the Forms on the Registrar's page. This form requires a great deal of input from the student, plus supporting documents. The process includes a final exam. The student can only receive experiential credit for courses existing in the catalog. The tuition for any credit earned is \$200 per credit hour.

### Independent Studies

5. *Independent Study* courses are current courses in the catalog, but taught in a one-on-one format, perhaps to accommodate a student with scheduling conflicts. They are not to be confused with *Directed Independent Study* (D.I.S.) courses, which are tailored for a student to pursue an independent project in her major. Independent studies should be rarely used. Students are expected to complete courses in standard formats whenever possible. Independent Study and DIS forms can be accessed on the Registrar's Forms page: Department Chairs must approve these.

## **Academic Enrichment**

### Honors Program

Entering Women's College students who fit selection criteria are invited to participate in the Honors Program, which consists of 18 credit hours of coursework throughout the students' undergraduate career at Brenau. Four Honors Seminars (12 hours) fulfill specific Liberal Education requirements in each of the four portals. Students also take an interdisciplinary research seminar in the junior year and complete a senior capstone course. Interested students who were not originally selected for Honors may apply to the Director of the Honors Program, Dr. Winter Elliott, for possible inclusion.

### Women's Leadership Certificate

This interdisciplinary Women's Leadership Program is designed to offer students academic and experiential opportunities to develop leadership skills informed by gender awareness. In addition to taking foundational courses in gender studies and leadership principles, students will complete an internship directly related to women in leadership. As part of the experience, each student will submit a paper about the internship and present it to a faculty committee. If a student's major requires an internship, that course may fulfill this requirement provided the student's work focuses on women and leadership. A minimum of 12 credit hours is required for certificate completion.

See the Women's Leadership Certificate link on the Brenau Humanities Department page:  
[www.brenau.edu/fineartshumanities/humanities-department/wlcp/](http://www.brenau.edu/fineartshumanities/humanities-department/wlcp/).

### Study Abroad

Tuition Exchange Programs allow a student to spend one independent semester or year of study abroad at a partner university. These exchanges allow Brenau students to pay home tuition while obtaining the experience of education abroad. Each student is responsible for all costs beyond tuition at the exchange university. This includes room and board, books, any extra

school fees, airfare and spending money. Student Exchanges are available through Brenau Agreements with

- IEJ European Institute of Journalism – Paris, France
- KU Leuven University – Antwerp, Belgium
- Ewha Woman's University – Seoul, Korea
- China Women's University – Beijing, China
- Aalborg University – Aalborg, Denmark.

For more information about these exchanges and other study abroad opportunities, contact the Director of International Students and Programs (770-534-6126).

#### Office of International Students and Programs

The director "assists international students with their transition into the Brenau community, facilitates immigration reporting and provides services to help international students in their personal, social and academic adjustment to Brenau. Many activities designed to increase global awareness and cultural exchange on campus are coordinated from this office" (Brenau Catalog).

### **Academic Support**

#### Academic Support Services

The Dean of Student is "an advocate for the students and a liaison with faculty. She works with students on a daily basis helping them adjust to college life and intervening when students find themselves struggling to achieve academic success" (Brenau Catalog). She may be contacted directly by students or faculty; faculty are also encouraged to use the Student Success Inventory described below.

#### Student Success Inventory

The SSI is "an early intervention instrument designed to help Brenau students succeed in their academic career." The form is linked on CampusWEB and states that "Faculty, professional staff, and paraprofessional staff are asked to complete the form if they have observed or are aware of behavior that may be detrimental to the student's success. When this form is submitted it will go to the Dean of Student Success and be triaged by the Student Success Committee. When necessary and where appropriate the information will be passed on to an academic advisor, counselor or other University resource personnel for the purpose of intervening and assisting the student." Please be aware of the "urgent" option on this form: "If this is an emergency please click the URGENT option below. If you feel the person is an immediate threat to themselves or others, please contact Security or 911 immediately after submitting this form."

#### Academic Honesty in Context

Students who receive an Academic Honesty Incident Report will be required to enroll in AS 120 Academic Honesty in Context, an online, zero-credit, P/F course, at a cost of \$125. Students must complete the course with a P during the next period of enrollment. Advisors can serve an important role by encouraging students to use this course as an opportunity to fully understand

the nature of intellectual property and the consequences of plagiarism, thereby avoiding any repeated incidents.

### Learning Center

530 Washington St.; 770-534-6133

The Center serves Brenau students with professionally diagnosed learning disabilities as well as other disabilities. Tutoring, extended-time testing, reading remediation, taped textbooks through Recordings for the Blind and Dyslexic, study strategies and academic advising are among the services available. Students are responsible for sending appropriate documentation to the Director of the Learning Center, Dr. Vince Yamilkoski. He will send each student a letter describing any prescribed accommodations. The Learning Center will communicate with campus coordinators and professors concerning the implementation of necessary accommodations. Advisors should alert Dr. Yamilkoski if they have concerns about the academic performance of their student advisees with disabilities.

### Math & Science SPA

611 Spring Street

The SPA (Study Place for Achievement) offers free peer tutoring services and other support to Brenau students in the following subjects:

- Pre-Algebra
- Algebra
- Statistics
- Pre-Calculus
- Calculus
- Biology
- Chemistry

The SPA is usually open from 8:00 am to 5:00 pm Monday through Thursday and 8:00 am to 2:00 pm on Friday. To schedule a (free) appointment or for more information, contact Ms. Dana Edge ([dedge@brenau.edu](mailto:dedge@brenau.edu)). Also see

<http://www.brenau.edu/healthsciences/mathscience/spa/math-spa-tutoring-schedule/>.

### Trustee Library

625 Academy Street; 770-534-6113

The Trustee Library furnishes online and print journals, articles, databases, and books selected specifically to support each of the University's programs. Knowing it is not enough to simply make these available, the Library provides online and on-ground classroom instruction to teach students to use these resources to complete their assignments. Professional librarians will also meet with individuals and groups face-to-face, by phone, or online to help students with research. A full range of services to support faculty research is also offered. Help is available days, nights, and weekends throughout the year.

For more information, visit <http://library.brenau.edu/>. To arrange classroom instruction, click <http://library.brenau.edu/request-instruction/>. Refer students to Ask A Librarian at <http://libanswers.brenau.edu/> or to <http://library.brenau.edu/my-librarian/> to schedule a consultation with a librarian.

### Writing Center

The Brenau Trustee Library, room 112; (770)538-4795; writingcenter@brenau.edu.

The Brenau University Writing Center, a peer tutoring service, offers individualized writing conferences and group workshops for students across disciplines and, through the Online Writing Center, across campuses. The Writing Center supports the university's goal to foster intellectual and professional accomplishment as it helps students develop their ability to communicate articulately in writing or speech.

The Center schedules appointments during weekdays and offers walk-in hours most evenings. Its services are free and available to all Brenau students.

For detailed information, including hours, how to schedule an appointment, how to submit a paper online, and what to expect, visit the Writing Center web page at <http://intranet2.brenau.edu/student-services/writing-center>.

### **Psychological and Spiritual Support**

For students in psychological or emotional distress, Brenau offers two counseling options on the Gainesville Campus. Note that the University Counselor, while free, sees patients on a limited basis (3 visits per semester).

#### University Counselor

Office Location: 205 Boulevard, Center for Health & Wellbeing

Telephone: 770-534-6135

Brenau offers free counseling to Brenau students on a limited basis (usually no more than 3 visits per semester) who are experiencing problems that interfere with their lives, studies or relationships. The University Counselor screens students to determine whether the students are in need of specialized mental health treatment and makes appropriate referrals for such treatment. The Counselor's supervisors may be informed when referrals have been made without disclosing the substance of the conversations with the student, unless the student is at risk of harming herself or others under which circumstances additional information will be required.

The above entry is excerpted from [http://intranet.brenau.edu/handbook/Student\\_Handbook\\_2015.pdf](http://intranet.brenau.edu/handbook/Student_Handbook_2015.pdf).

#### BCCPS: Brenau Center for Counseling and Psychological Services

Office Location: 423 Brenau Avenue

Telephone: 770-297-5959

Anyone interested in counseling services can contact the clinic at 770-297-5959. After providing some basic information at the initial phone call, your assigned counselor will call to set up an appointment. Sessions are typically scheduled for 50 minutes, once a week. You can reschedule or cancel appointments with a 24-hour notice.

Costs: Brenau students - \$5 for first intake appointment; \$5 each session  
Faculty & alumni - \$25 for first intake appointment; \$15 each session  
Community members - \$25 for first intake appointment; \$20 each session

Sliding fee scale based on income is available. Call to inquire. Second-year graduate students in Brenau's Clinical Counseling Psychology program work in the BCCPS as one of the last steps before graduation and receiving a license to practice on their own. Licensed Professional Counselors or psychologists supervise counselor-client interaction.

The above entry is excerpted from  
<http://www.brenau.edu/academics/college-of-health-sciences/department-of-psychology/brenau-center-for-counseling-psychological-services/>.  
Religious & Spiritual Support Services

### Chaplain

Office Location: 205 Boulevard, Center for Health & Wellbeing  
Phone: 770-534-6259

The Brenau University Chaplain promotes and coordinates religious and spiritual programs and activities for students, faculty and staff. The chaplain is available to students who are experiencing crisis, dealing with personal problems or who just want to chat about their personal situations. The main Religious Life organization on Campus is the Brenau Spiritual Life Association which meets regularly. In addition, the Chaplain oversees the Servant Leadership Scholars Program which trains and raises up student leaders who receive scholarships for their activities. The Chaplain is available for spiritual direction and counseling. No record of counseling is maintained in any academic, education, or job placement file. The Chaplain's supervisors may be informed when referrals have been made without disclosing the substance of the conversations with the student, unless the student is at risk of harming herself or others, under which circumstances additional information will be required. [This entry is excerpted from the Brenau Student Handbook 2015.]

### **Professional Advice, Mentoring, Collaboration**

- Early in the advising relationship, mention to students that they will most likely need letters of recommendation at some point, whether for scholarships, graduate school, or employment. Explain that impressing their professors in a positive way will be laying the foundation for that eventuality.
- Consider encouraging able students to assist in your research, to present at conferences, and to get involved in professional organizations.

### Career Services

Location: first floor of the Owens Student Center. The following services are offered:

- Assistance with choosing a major
- Assistance with career planning
- Resume and cover letter critiques
- Interview preparation
- Mock interviews
- Assistance with the internship search & job search processes

- Assistance with planning for graduate school
- On-Line Job Board
- Job Fairs
- Credential Files
- Career Library

For more information, go to <https://intranet.brenau.edu/career-services/>.

## **Graduation Info**

### Graduation Application

Students who will complete all requirements for their degree by the end of the Spring semester must submit a Graduation Application to the Registrar's Office by the previous Oct. 1 (up to Nov. 15 with late fee) to take part in May graduation exercises.

Students who will complete all requirements for their degree by the end of Summer or Fall terms must submit a Graduation Application to the Registrar's Office by May 1 (up to June 15 with late fee) to take part in the December graduation.

(See the Registrar's website [Forms] for details.)

Encourage students to apply for graduation as soon as the application forms for their anticipated graduation are posted on the Registrar's site. This will trigger the Registrar's graduation audit to determine if all requirements have been met. Both student and advisor are alerted when the audit is complete. Results are posted on CampusWEB. An early audit allows students time to adjust their final registrations for course work if necessary.

*Important:* Students must complete ALL coursework prior to graduation in order to participate in the ceremony. This requirement includes any pending transient work, which must be transferred back to Brenau (via official transcript) BEFORE graduation. Students who have any coursework pending or have outstanding incompletes will not be permitted to walk.

## **LIFELONG RELATIONSHIP**

The most successful mentor-mentee relationships will not dissolve after graduation but evolve. Consider using social media sites (e.g., Facebook) and/or professional networking sites (e.g., LinkedIn) to keep in touch with former students. Brenau graduates can be powerful sources of information and inspiration to current students. Facilitating networks between them deepens everyone's connections to Brenau.

## APPENDIX

### English and Math Placement Policies

**English** Students who have not completed EH 101 Written Communication or its equivalent prior to admission will be placed into developmental EH 099 Writing Laboratory or EH 101 based on ACT or SAT scores. The minimum ACT/SAT score for placement into EH 101 is ACT English 20 or SAT Critical Reading 490. Students who do not have an ACT/SAT score will take the web-based Accuplacer English Placement Test unless they choose to place themselves in EH 099. Based on the results, the student will be placed into either EH 099 or EH 101.

Note: Most entering students have SAT or ACT scores. For those who need to take Accuplacer, an information sheet with full details about it can be found at <http://www.brenau.edu/admissions/nextsteps/>.

About the score reports:

When a student takes Accuplacer, she sees her scores on the final computer screen, along with a message about which English course she has placed into. At the same time, the system automatically sends an email report to the Registrar—in a format that includes only the student's name, then ID#, date, and two numbers (for instance, Agnes Pearce 505050 08 15 2013 72 79). The last two numbers represent Reading Comprehension and Sentence Skills scores—always in that order. The current cut-off scores for placement into EH 101 are *Reading 68, Sentence Skills 74*. If *either* score falls lower, the student places into EH 99. (A copy of this email report is what the Registrar posts into SentryFile.)

**Math** Placement into mathematics courses is determined by placement exam only for all students. Women's College and Undergraduate School students can take the math placement exam available via the internet through Canvas. Based on the results of the placement exam, the student will be placed into college level math (MS 101, MS 111, or MS 210) or remedial level math. The Placement Exam cut-offs for math placement are:

- MS 098, Survey of Basic Mathematics –exam score of 38 or less
- MS 099, Basic Algebra –exam score of 39-54
- MS 101, College Algebra –exam score of 55-79
- MS 111, Pre-calculus/Trigonometry –exam score of 80 or higher
- MS 210, Calculus – passing score on the calculus placement exam. Please see the math and science department for more information.

Note: Non- AGS students who place into MS 210 may not elect to take MS 101 or MS 111 without departmental approval.

**IMPORTANT NOTE:** Neither developmental English nor Math (EH 99, MS 98, MS 99) carry credit of any kind, either for financial aid or enrollment status (full-time, part-time) purposes.

### English Language Proficiency for International Students

In addition to the regular admissions requirements, non-native English speaking students on an international visa must also submit proof of English proficiency. All international students must meet at least one of the English proficiency requirements below:

- ACT English score of 19
- SAT verbal score of 450

- Test of English as a Modern Language (TOEFL) score of 450 on the paper-based test
- Test of English as a Modern Language (TOEFL) score of 213 on the computer-based test
- Test of English as a Modern Language (TOEFL) score of 75 on the internet-based test
- IELTS score of 6.0
- Grade of “C” or better in EH 101 and EH 102 from a regionally accredited U.S. college or university.

*International Students who meet this proficiency also meet the Liberal Education Modern Language requirement.*

### **Modern Language Liberal Education (LE) Requirement**

All University students entering at the bachelor's level must meet a Liberal Education Modern Language requirement by demonstrating at least the high beginner level of language competency at the 102/112/115 level. The following policies apply to this requirement:

**Placement:** Placement tests are available for limited languages through WebCAPE (Computer Adaptive Placement Exam). This is a "snapshot" placement test and can be taken for low cost online with results in approximately 20 minutes. Students may be placed into 101, 102, or 200-level language courses based on the results. If placed into 102 or above, students must take that additional course to complete their language requirement. Students are responsible for any fees incurred for this test. Students should go to the following url to register and take the test: <https://www.perpetualworks.com/secure/register/student/>.

Students should PRINT their results and alert the Office Manager for the Department of Humanities to review their results.

Cut-off scores for WebCAPE are:

Over 500	Student should consult with departmental faculty to identify appropriate course or additional testing options.
351 - 500	Permission to enroll at the 200 level or above.
251 - 350	Permission to enroll at the 102 level.
Below 250	Enrollment at the 101 Level *.

\* Students concerned that the test does not reflect their knowledge of the language may request further evaluation by a faculty member who can evaluate listening, speaking, and/or writing skills to determine if enrollment in a higher level course is advisable.

Communication LE Credit: A 102/112/115 language course fulfills the LE requirement in Modern Languages. All other language courses taken by the student (101- or 200- level) may count toward the Communication requirement. Motivated students are encouraged to continue study at the 201 or 215 Applied Language level, including study abroad.

**Exemption:** Exemption of the language requirement may be achieved by:

1. Transfer of equivalent credit from an accredited university.
2. CLEP: If the test is in a language taught at Brenau, credit will be awarded. For CLEP of other languages, exemption will be given without credit. (We cannot award credit if we do not teach the class at Brenau.) See the appendix, or contact Brenau University Learning Center at 770-534-6133 for CLEP information.
3. Students entering with an A.A. or A.S. degree (as defined by the Brenau Registrar) or with a previous bachelor's degree are exempt from any additional Liberal Education requirements per Brenau policy.
4. BYU FLATS (Foreign Language Achievement Testing Service) available in 50 languages: test must be proctored and takes about 2.5 hours. Students are responsible for any fees incurred for this test. Scores of 60% or above will provide exemption only. NO credit is awarded for FLATS tests. In Gainesville, the Brenau Learning Center offers the FLATS test; students in other locations must make arrangements with a local public library or college testing center to proctor, pending approval of the Chair of the Brenau Department of Humanities or the Chair's designee.

*Heritage speakers:* “Heritage” speakers and others with advanced skills in a second language may NOT take 101; they should CLEP or seek placement or exemption through one of the methods described above.

*Non-Native English Speakers:* If a non-native English-speaking student has earned any academic credit from a U.S.-accredited institution, but has not submitted a TOEFL score, then she must take a WebCAPE exam or BYU FLATS test to demonstrate competency in her native language or a second language.

## Brenau University Advanced Placement (AP) Credit Guide

TEST TAKEN	SCORE	BRENAU EQUIVALENT	COURSE TITLE
Art Appreciation	3, 4, or 5	AH 100	Art Appreciation
Art History	3, 4, or 5	AH 323	Art History
Biology	4 or 5	BY 111/111L & BY 112/112L	Biol Science I & II & Labs
Calculus AB	4 or 5	MS 210	Calculus & Analytical Geometry
Calculus AB or BC	3	MS 111	Pre-calculus/Trigonometry
Calculus BC	4 or 5	MS 210	Calculus & Analytical Geometry
Chemistry	3 or 4	CY 121/121L	General Chemistry I & Lab
Chemistry	5	CY 121/ 121L & CY 122/ 122L	General Chemistry I & II & Labs
English Lang and Comp, English Lit and Comp	4 on either	EH 101	Written Communication
English Lang and Comp, English Lit and Comp	5 on either or 4 on both	EH 101 & EH 102	Written Communication & Reading & Research Writing
Environmental Science	4 or 5	BY 201	Environmental Biology I
European History	3, 4, or 5	HY 210 or HY 211	World Civilization I or II
French Language and Culture	4 or 5	FH 101	French Lang. and Culture I
Government and Politics: U. S.	3, 4, or 5	PO 101	American Government
Human Geography	5	GY 201	Intro to Geography
Italian Language and Culture	4 or 5	IN 101	Italian Lang. and Culture I
Macroeconomics	3, 4, or 5	BA 207	Macroeconomics
Microeconomics	3, 4, or 5	BA 206	Microeconomics
Physics B	5	PS 121/121L & PS 122/122L	Physics I & II & Labs
Physics B or C: Mechanics	4 or 5	PS 121/121L	Physics I
Physics C: Electricity & Magnetism	4 or 5	PS 122/122L	Physics II & Lab
Psychology	3, 4, or 5	PY 101	General Psychology
Spanish Lang. and Culture	4 or 5	SH 101	Spanish Lang. and Culture I
Statistics	4 or 5	MS 205	Introduction to Statistics
Studio Art: 2D Design	3, 4, or 5	AR 101/101L	Foundations: 2D and 3D
Studio Art: 2D Design	5	AR 101/101L & AR 102/102L	Foundations: 2D and 3D Foundations: Color
Studio Art: 3D Design	3, 4, or 5	AR 102/102L	Foundations: Color
Studio Art: Drawing	4 or 5	AR 112/112L	Drawing I & Lab
United States History	3	HY 201	History of the U.S. I
United States History	4 or 5	HY 201 & HY 202	History of the U.S. I & II
World History	3	HY 210	World Civilization I
World History	4 or 5	HY 210 & HY 211	World Civilization I & II

Updated August 2013

## Brenau University CLEP/DSST Test Guide

For a test to be accepted for credit by Brenau, it must be on this list!

(List is continued on next page.)

Please be aware that ETS's passing scores are not necessarily the same as Brenau's.

EXAM TITLE	COURSE NAME & #	REQUIRED SCORE	CREDITS	EXAM TYPE
A History of the Vietnam War	HYPO315-The United States and Vietnam	400	3	DSST

\*\* Taken by Brenau's varsity sport teams.

These courses can count toward classroom (WH) or activity (LS/LF) physical education requirements.

Updated 04/2015

## **Adult & Graduate Studies (AGS): the Basics**

Brenau has embarked on a new model of education for working adults.

Some of its features include

- concentrated courses that meet online or for 4 hours one night a week for
- cohorts of learners that move through their programs together;
- weekly learning group meetings;
- same-day-of-the-week schedule throughout the program;
- focusing on one course at a time, where schedule allows.

Also, AGS has dedicated personnel responsible for recruitment, registration, career counseling and retention.

The degree programs being offered are the following:

- Associate of Arts in Liberal Studies (General)
- Bachelor of Business Administration with Concentrations in Accounting, Human Resources Management, Marketing, and Business
- Bachelor of Arts in Organizational Leadership
- Master of Business Administration with Concentrations in Management, Marketing, Accounting, Finance, Human Resource Management, Healthcare Management, Project Management, Insurance Management, and Entrepreneurship
- Master of Science in Organizational Leadership
- Bachelor of Science in Early Childhood Education
- Bachelor of Science in Nursing
- Bachelor of Arts in Psychology
- Master of Education - Early Childhood Education
- Education Specialist - Early Childhood Education

You might encounter advisees who are interested in pursuing one of these degrees.
