## CLINICAL AND FIELD EXPERICE

Joyce and Kim are working hard to be ready for August!

Joyce is working to place almost 200 students between Field Experiences, Student Teaching and Internships. School systems are ready for face to face in August, so that is great news for us---no more Video Field Experiences!!! She also continues to give students guidance on the phone and through email and share her wisdom as school systems are undergoing many changes due to teacher shortages.

Kim is revising the Clinical Experiences Handbook, the College Supervisors Handbook and making sure all forms in Livetext have accurate information, and email addresses. Updating MOU's with cooperating school systems is an ongoing task for her. She is also working to create ED 100/501 Clinical Experiences Seminar, which will meet three times (8/24, 9/21, and 10/19) and will help students navigate the myriad of forms needed to get teacher candidates to the finish line.

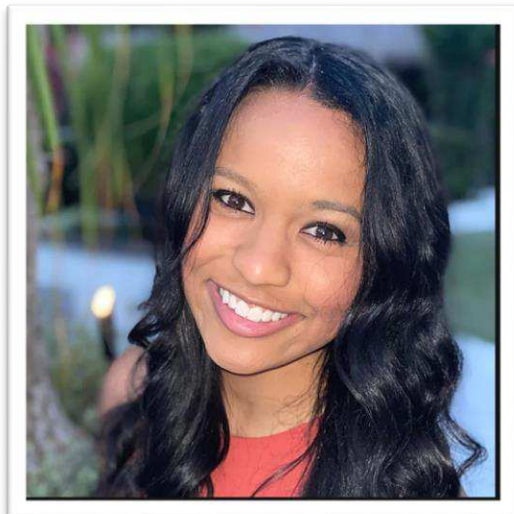

Joyce, Kim and Gefry have been working on making some of our applications Google based and also have been rethinking the Clinical Experiences Website to make it more user friendly and visually appealing---an ongoing process.

## Ed.D. PROGRAM

We are so proud of Dr. Renee Crandall & Dr. Caitlin Kraeling to be the first two students to graduate the Ed.D. Program this past May. We are preparing a few more to finish the Program this summer and attend graduation in December 2021.

Dr. Autumn Dodson remembers the required “research talk” she had with Dr. Kelley Brock-Simmons and the excitement she felt when her dissertation topic was nailed down and she was provided a committee and approval to begin her proposal. Autumn was so inspired by her dissertation topic, “The effectiveness of African American teachers instructing African American students” she set out to write a dissertation AND a book! Autumn has finished her book and became Dr. Dodson in June! Check it out and order one! The book is available on Amazon and Barnes and Noble.

## CONNECTING WITH STUDENTS

Dr. Bromer and Dr. Wilkerson recently had lunch with two Augusta campus graduates, Terry (Diamond) Capers (elementary) and Beverly Lowery (middle grades), to catch up on their many accomplishments as Richmond County teachers. Diamond completed a Master's degree in May and Beverly was selected to attend the highly competitive

GenCyberCamp for Teachers in June. Pictured from left to right: Dr. Bromer, Diamond Capers, Dr. Wilkerson, & Beverly Lowery.
