

We are looking for a committed and patient-focused Occupational Therapist in a smaller, but growing outpatient pediatric clinic. The clinic is located in the Towne Lake area of Woodstock, GA. The clinic is looking to expand while continuing to provide more individualized services. The owner is heavily involved in the day-to-day operations and continues to see patients. She has worked in an array of pediatric settings including a children's hospital, the public school system, multiple private practices, and early intervention. Services are provided in the clinic setting as well as through early intervention in the home/daycare environment. While the office setting is in Woodstock, GA, there are possible opportunities for early intervention in the counties of Cherokee, Fannin, Gilmer, Murray, Pickens, and Whitfield. We are looking for candidates who want to see children in either the office setting, any of the aforementioned counties for early intervention, or both of these settings.

Our service population encompasses a wide variety of pediatric patients with diagnoses including but not limited to:

- Autism
- Sensory Processing Disorder
- Sensory Feeding Concerns
- Cerebral Palsy
- Down Syndrome
- Developmental Delays
- Genetic Disorders
- Children Who Have Experienced Trauma

The occupational therapist will be responsible for evaluation and treatment of children and offer effective services that will enable a child to confidently and independently carry out everyday tasks or activities while working closely with the caregiver to maximize the child's growth and development outside of treatment sessions. The successful candidate will use a holistic approach to find creative solutions for the functional tasks that present challenges throughout a child's day.

Responsibilities

- Evaluation/re-evaluation of patients
- Screenings if applicable
- Guide and educate caregivers
- Scheduling and rescheduling patients
- Observe, note, and report on progress of long-term and short-term treatment goals
- Timely and efficient documentation

Requirements/Skills

- Bachelor's, Master's, or Doctorate degree in occupational therapy
- Valid Georgia license to practice occupational therapy
- Excellent knowledge of principles and practices of occupational therapy and a drive to continually learn and grow in the profession
- Familiarity with pediatric evaluation tools is a plus
- Ability to implement treatment with functional outcomes
- Ability to manage patients with different types of diagnoses and/or personalities
- Positive interpersonal skills
- Effective oral and written communication skills
