

## **Fieldwork Level II Suggested Progression of Expectations**

The following is a **very general outline** for the progression of expectations for a Fieldwork Level II student. Progression is always based upon the specific setting, the caseload, and the individual student's learning needs, so, **each Fieldwork Educator is to amend this suggested progression according to these parameters.**

- I. **Week 1:**
  - A. Orientation to policies and procedures and to space and supplies
  - B. Observation of assessments and treatments
  - C. Begin assisting with treatments and assessments
  - D. Share clinical reasoning with FWE regarding observations with patients
  - E. Weekly meeting with FWE to discuss learning objectives and plans for next week
  
- II. **Week 2:**
  - A. Prepare treatment plans for 1-3 patients/clients and perform these treatments
  - B. Lead treatments for several patients/clients based on FWE's treatment plans
  - C. Perform at least one assessment or part of assessment(s)
  - D. Continue to share clinical reasoning regarding observations of patients/clients based on FWE's treatment plans
  - E. Weekly meeting with FWE to discuss learning objectives and plans for next week
  
- III. **Week 3:**
  - A. Prepare treatment plans and carry out treatments for at least 3 patients/clients
  - B. Lead treatment plans for several patients/clients based on FWE's treatment plans
  - C. Perform at least 3 assessments or reassessments
  - D. Share clinical reasoning with FWE regarding observations with patients
  - E. Weekly meeting with FWE to discuss learning objectives and plans for next week
  
- IV. **Weeks 4-6:**
  - A. Prepare treatment plans and carry out treatments for at least 5 patients/clients
  - B. Lead treatment plans for most of the patients/clients on the FWE's caseload, based on FWE's treatment plans
  - C. Perform at least 4 assessments or reassessments
  - D. Share clinical reasoning with FWE regarding observations with patients
  - E. FWE begins to not be present during all of treatment sessions
  - F. Weekly meetings with FWE to discuss learning objectives and plans for next week

V. **Week 7:**

- A. Prepare treatment plans and carry out treatments and assessments for at least 75% of a full caseload
- B. Share clinical reasoning with FWE regarding observations with patients
- C. FWE is not necessarily present during each treatment (except for SNF & Home Health)
- D. Weekly meeting with FWE to discuss learning objectives and plans for next week

VI. **Week 8-12:**

- A. Prepare treatment plans and carry out treatments and assessments for a full caseload
- B. Share clinical reasoning with FWE regarding observations with patients
- C. FWE is not necessarily present during each treatment (except for SNF & Home Health)
- D. Weekly meetings with FWE to discuss learning objectives and plans for next week
