Who is EmpowerMe Wellness?

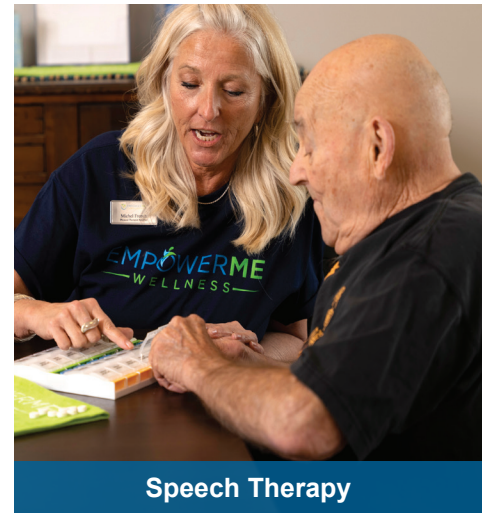

We are a fully integrated health care company that is transforming the way therapy is delivered in senior living communities. Our 3,000+ team members offer Physical Therapy, Occupational Therapy, and Speech Language Pathology services in 36 states.

We are committed to providing opportunities for student therapists to gain experience with and to develop a passion for working with older adults. We are able to accommodate Level I and Level II clinical experiences in most locations. Student therapists may also have an opportunity to learn about the diagnostic, pharmacy and nurse practitioner services that we offer in select locations.

If you are a therapy student and would like more information about our Clinical Education program or about employment opportunities after graduation, please email us at universityrelations@empowerme.com.

Speech Therapy

Occupational Therapy

Our vision is to be a tech-enabled, multi-service healthcare organization focused on improving outcomes for seniors in the communities where they live. With a presence in nearly 1,000 clinics representing over 100,000 residents across the country, we are the largest therapy provider in senior living.

Student clinicians work with residents of our partner communities under the direct supervision of an experienced clinician per Medicare guidelines. Clinical Instructors abide by the guidelines of the industry associations

for supervisors. American Occupational Therapy Association (AOTA), American Physical Therapy Association (APTA), and American Speech-Language-Hearing Association (ASHA) guidelines for supervisors.

We have partnerships with many of the larger therapy programs in the country but are always looking to expand our reach. Please contact Imeyer@empowerme.com for more information about establishing an affiliation agreement with EmpowerMe.
