

A TRUE PARTNER IN

## Healthcare & Medical Recruitment

Healthcare recruiting is one of the most difficult industries in recruiting today. Our experienced healthcare and medical recruiters understand that and rise to the challenge everyday. We help clients with difficult-to-fill positions to locate the experienced, qualified and credentialed staff they need.

At Goodwin Recruiting we build real relationships with both clients and candidates to ensure a strong match. We make it our mission to learn everything we can about the healthcare facilities we work with and the talent we place, ensuring a cultural fit for both.

# The benefits of working with Goodwin Recruiting

## Experience

Goodwin recruiters are experienced healthcare and medical recruiting professionals who utilize their contacts and resources to facilitate excellent matches, quickly. We want to build a genuine partnership with you to create your success.

## Pre-Qualified and Educated Candidates

We meet with each candidate before recommending them to you. They are screened, determined as a match for your qualifications and culture, and educated and excited about your opportunity. If they are not a fit, we will not recommend them.

## Quality over Quantity

We do not provide high quantities of resumes for you to review. We listen to your expectations for each position and only provide the highest quality candidates that match the criteria that your firm sets.

## Sources

With dozens of years of experience in recruiting healthcare positions we have a deep pool candidates. We can introduce you to passive candidates who are not currently seeking employment and may be unaware of your current opportunities. We provide information not evident on a resume such as personality, strength of character, management style, communication style, and more.

## A True Partner

Goodwin Recruiting strives to be a true partner to all its clients. We are committed to promptly returning all your communication and keeping information regarding your searches confidential.

## Contingency Based

Our fees are only generated once you hire our candidates. There is no risk or upfront cost to your organization.
